

ILLINOIS EMPLOYERS MANDATED TO PROVIDE SEXUAL HARASSMENT PREVENTION TRAINING BY DEC. 31

August 14, 2020 | Alert

As we move through the third quarter of 2020, we want to remind Illinois employers of their obligation to comply with state-mandated sexual harassment prevention training requirements that must be completed by December 31, 2020. The obligation applies to ALL ILLINOIS EMPLOYERS of any size including for-profit, non-profit and governmental.

Burke Warren's Labor & Employment Group is ready to help employers with in-person or webinar-based training programs that incorporate an organization's policies and procedures, in addition to real world examples.

For more information on the Illinois Workplace Transparency Act, review our article entitled: Attention Illinois Employers -- sweeping anti-harassment law changes are on the way
